ALSO HAPPENING THIS MONTH:

INTERNATIONAL WOMEN'S DAY

International Women's Day is celebrated on March 8 each year to honour and celebrate the accomplishments of women worldwide. Additionally, it is a time to celebrate innovative female entrepreneurs and the companies they have founded. For example, Exceptional Support Services was founded by our very own Wadzanai Wonzeri in 2021, and she's been working hard to make it a successful business. Women's leadership and work can create a brighter future for everyone!

WORLD DOWN SYNDROME DAY

World Down Syndrome Day, a globally recognized awareness day dedicated to advocating for the rights of individuals with Down Syndrome. It strives to promote understanding, acceptance, and support for people with Down Syndrome and their families. We also celebrate the contributions and accomplishments of individuals with Down Syndrome in their communities. Join the movement and help spread awareness and acceptance of Down Syndrome.

WORLD WATER DAY

On World Water Day, individuals, communities, countries and organizations come together to recognize the importance of water and advocate for the sustainable management of our planetary water resources. This day is an opportunity to recognize how water connections our lives - from food production to energy and from industry to nature. We must take better care of our global water resources.
